

SONIA TOUKKARI

PRODUCT DEVELOPER REACT & CAPACITOR MOBILE MVPS

PERSONAL PROFILE

Developer-focused product builder with 5+ years delivering mobile and web apps from idea to store release. I build testable MVPs with React, TypeScript, and Capacitor, with a strong QA mindset — I design, implement, test, and ship. Experienced publishing to Google Play and the App Store.

Mobile: iOS & Android builds · WebView apps · Xcode · Android Studio · signed release AAB/APK

Quality & launch: Manual QA · TestFlight · Play Console · App Store Connect · Pre-release testing

Deploy & AI tools: Vercel · Firebase · Claude · VS Code · Cursor · Jira

Design & Prototyping: Figma · Canva · OBS

WORK EXPERIENCE

QA Specialist and app developer

SuperApp Oy | May 2020 - January 2025

Built and refined front-end UI for mobile applications

Owned quality checks and release support for 20+ iOS/Android apps — testing, build verification, store submissions.

Worked cross-functionally with designers and developers from concept through deployment.

MY PUBLISHED APPS

MiniLingo: Playful alphabet for early learners (ES/EN/FI). Live on Google Play only

OmaVoltio: Real time electricity prices in Finland.

Habit Orbit: Simple daily habit tracking with weekly view and stats (EN/ES/FI)

Nitida AI: UX/UI reference tool with accessibility, localization tips, and PDF export

The latter 3 apps are live in both stores!
